oasia spa Brands

We are committed to bringing you wellness in the most natural way possible. This is reflected in our purposeful selection of skin and body care products and treatments.

Our in-house brand Oasia Signature focuses on giving the mind and body respite from the stresses of the modern world. Our three massage oils are blended by a team of aromatherapists in Japan. Each use a luxurious blend of 8 powerful ingredients like rice bran, jojoba and adley as a base, and are free of SLS, parabens, silicones and synthetic substances. They are also inspired by natural elements of Water, Wood and Sun. Water relaxes and calms with its soft floral scents of lavender and geranium. Wood restores the body and grounds you with its gender-neutral scents of cedar, clary sage and coriander seed, with a hint of lime. Sun uplifts with lemongrass, mandarin, hinoki and pepper, all of which boost circulation and release muscular tension. In addition, we are also the first spa in Singapore to introduce Cryotherapy facials and forest bathing therapy within our Meditation Lounge.

Breaking further ground in spa solutions, we are the first spa in South East Asia and Oceania to partner with leading organic skincare expert KOTOSHINA Organic Spa from Japan. In Japanese, 'koto' means 'ancient capital' and 'shina' means 'articles' or 'dignity'. As its name suggests, KOTOSHINA was established in 2012 by tapping into the rich histories of both Japan and France. It harnesses the power of green tea harvested from Uji Kyoto and French spa water tapped from Gamarde Les Bains. Keeping to high quality organic standards, KOTOSHINA is certified by Qualité France and has a Cosmécio label. Rest assured your skin will be nourished with nature's best.

SPARITUAL is a sustainable and vegan beauty brand that believes in the concept of slow beauty – taking time for self-care and slowly returning to yourself is the path of enlightenment. Our SPARITUAL massages and nail care use only clean and non-toxic products. Every treatment is a programme intentionally designed to “awaken relaxation, deliver nourishment and set in motion the return to a state of wholeness.”

Finally, as you depart our resort and wish to continue using our organic Biology toiletries back home, bring your own bottle or purchase a recyclable bottle at our Biology refill station.
